

Overview

Established in 2023, our company has grown rapidly by delivering unique and affordable solutions for various needs, from creating comfortable living spaces to the building and development of large-scale projects related to industrial facilities.

Construction Hub is a premier construction company that has been delivering high-quality residential, commercial, and industrial construction services since 2023. With a track record of excellence and innovation, we specialize in creating sustainable, safe, and functional structures that meet the needs and aspirations of our clients.

Our commitment to quality, safety, and customer satisfaction has made us a trusted name in the construction industry. We take pride in our ability to complete projects on time and within budget, while maintaining the highest standards of craftsmanship and design.

Core Services

Residential Construction

Single-family homes, townhouses, and multi-family units.

Custom home building and luxury residences.
Renovations, remodels, and extensions.

Commercial Construction

Office buildings, retail spaces, and shopping malls.
Hotels, restaurants, and entertainment facilities.
Commercial renovations and fit-outs.

Industrial Construction

Manufacturing plants, warehouses.
Power plants and energy-efficient industrial spaces.
Specialized construction for technical facilities.

Infrastructure Development

Construction Hub also handle infrastructure needs like road construction, utilities, sewage systems, and drainage systems, all of which are essential for industrial facilities to operate efficiently.

Maintenance and Renovation

We provide maintenance services, including the upkeep of machinery, systems, and structures. They might also take on renovation projects to update aging facilities or adapt them for new uses.

Sustainability

With an increasing focus on sustainability, we are integrating eco-friendly practices into their projects, such as using renewable energy, recycling materials, and reducing emissions from construction activities.

Why Choose Us

Experienced Team

Our team consists of highly qualified engineers, architects, project managers, and skilled laborers, ensuring the successful execution of any project.

Quality Assurance

We prioritize quality in every aspect of construction, from materials selection to craftsmanship. Our quality control processes ensure that we meet or exceed industry standards.

On-Time Delivery

We understand the importance of deadlines. Our efficient project management approach ensures projects are completed on time and without unnecessary delays.

Customer-Centric Approach

Our clients are at the heart of everything we do. We work closely with them to ensure that their vision becomes a reality and that their expectations are not only met but exceeded.

Our Values

Integrity

We conduct our business with honesty and transparency, fostering trust with our clients, employees, and partners.

Safety

The safety of our workers and clients is our top priority. We adhere to strict safety regulations and ensure a secure working environment at every job site.

Innovation

We embrace new technologies and methods to improve construction efficiency, cost-effectiveness, and sustainability.

Excellence

We are committed to achieving excellence in everything we do, from the quality of our work to the level of customer service we provide.

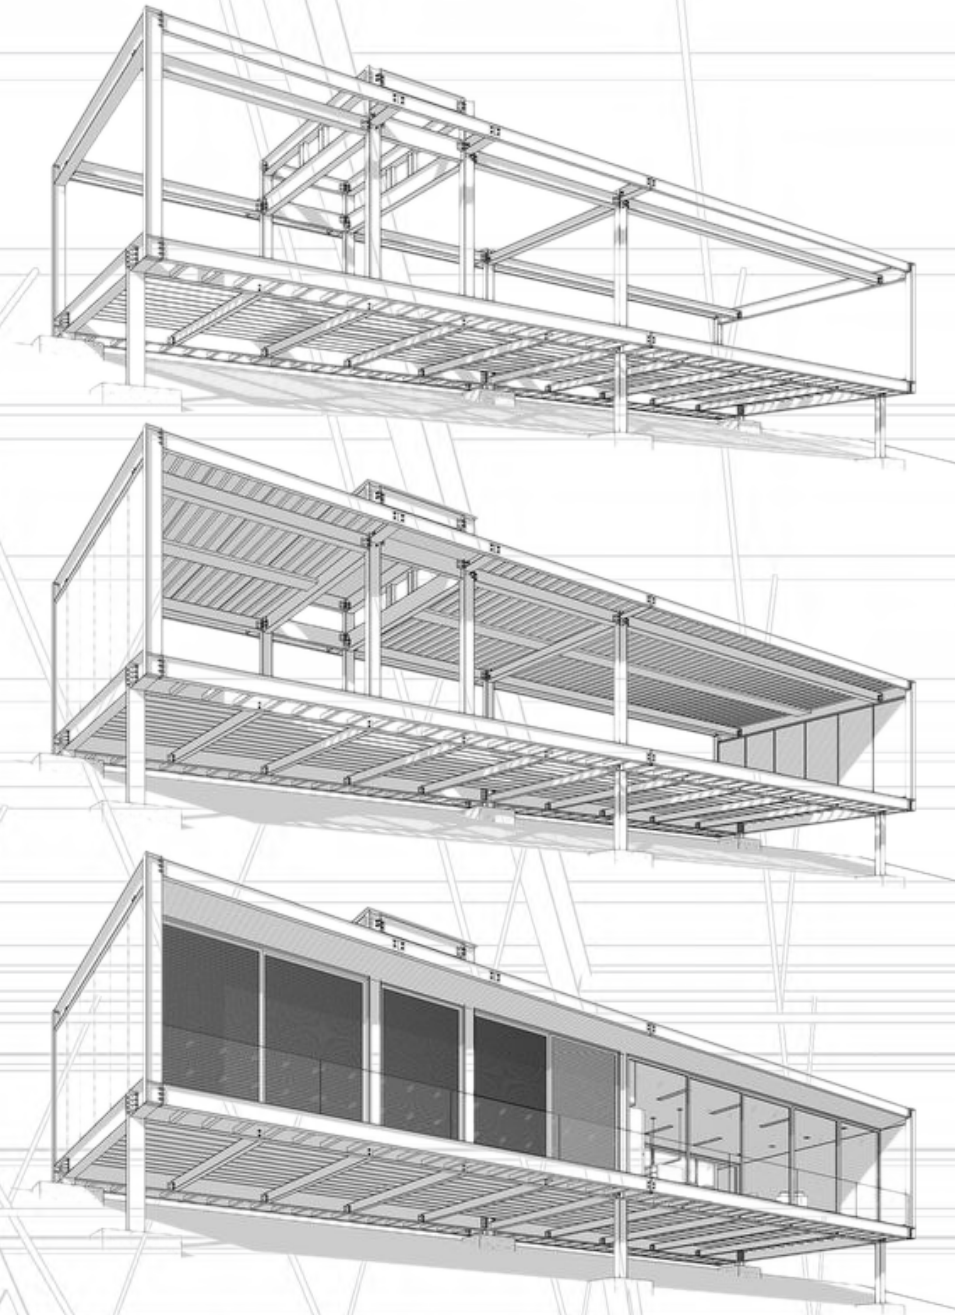

Our Approach to Construction

At Construction Hub, we follow a structured and transparent approach to every project, which includes:

1. Initial Consultation & Design Phase: We work closely with architects and clients to ensure the design meets the client's vision and the project's requirements.
2. Planning & Permits: We handle all necessary permits and regulatory requirements to ensure compliance with local laws and codes.
3. Construction & Execution: Our skilled workforce begins construction, with rigorous quality control and safety procedures in place at every stage.

Our company carries out the preparation, painting and installation of metal structures for industrial facilities, large-scale warehouses, as well as civil facilities such as stadiums, shopping and entertainment centers. We have a highly professional (certified) welder and installer potential that will carry out the assembly of all kinds of projects (welded or bolted) in the factory and installation on the construction site, regardless of their height and span.

We offer expert solutions in customizable, ready to ship, or DIY Kits for container homes, multi-container modules, container offices, and commercial/industrial container solutions.

20/40 ft Container Home Features

Small & Efficient

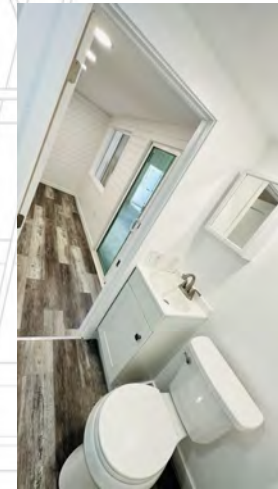

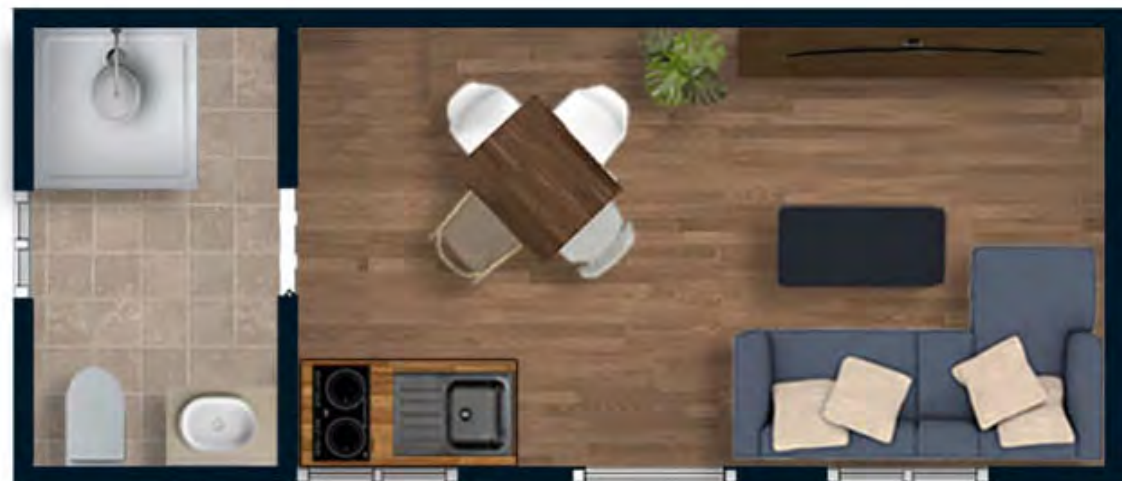

It's a ton of home packed into a small package. If you have limited space, this is perfect for you.

Easily Shipped and Moved

Our models are the easiest to deliver and move should you decide to place the unit in a different location.

Built for Comfortable Living

This unit is built with comfort in mind, as all of our units are. Even though the space is limited, the possibilities are endless.

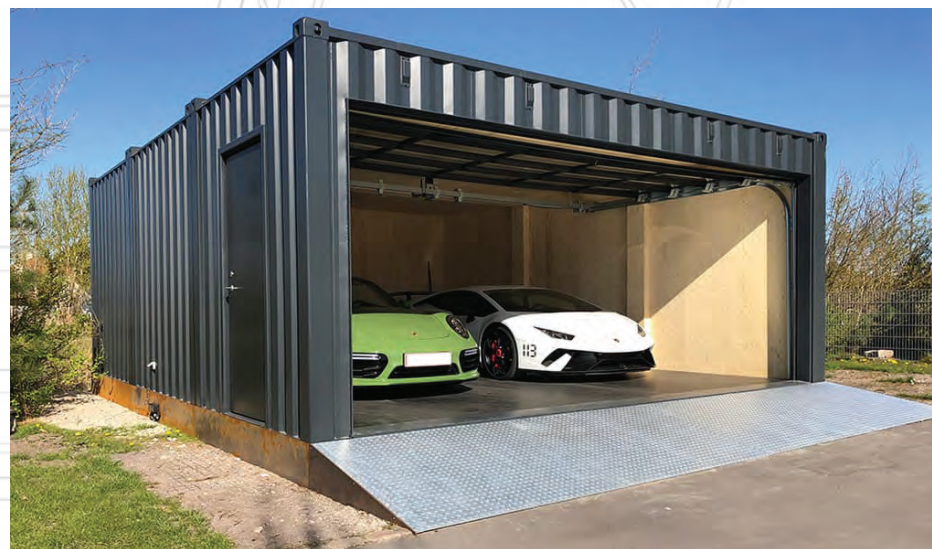

Our building team has completed the construction of the storage facilities for the CSVS.

Warehouse-type container for storing chemical reagents

Garage complex for vehicles

Workshop and office complex for working with high-pressure equipment

Office space for forestry

SOCAR Polymer: Preparation of a container-type chemical reagent laboratory

SOCAR Polymer: Epoxy coating of warehouse floor.

SOCAR Polymer: Installation of steam line meter platform (metal construction work)

We are working on building a coastal hotel complex in Kazakhstan.

Azerbaijan, Baku, Garadagh District, Salyan highway 28th km, AZ1083
